Limassol Marina

Environmental Code of Conduct

All berth holders and visitors are kindly requested to follow these simple but essential rules to help preserve our local environment:

- Hazardous Waste: All hazardous materials must be disposed of correctly and safely using the designated Marina hazardous waste facilities and services.
- General Waste & Recycling: Please use the appropriate bins and recycling containers provided throughout the Marina.
- Environmental Respect: All Marina users must act responsibly and ensure their activities do not harm or pollute the environment.
- Boat Repairs & Washing: These must only be carried out in designated areas, using all necessary precautions to prevent pollutants from entering the water.
- Sewage & Grey Water Discharge
    - Discharge of untreated waste is prohibited within 12 nautical miles (NM) of the Cyprus coast.
    - Treated waste (using approved systems) must not be discharged within 3NM.
- Use of Shore Facilities: Please use shore-side washrooms whenever possible. Holding tanks can be emptied at the Marina using our pump-out facilities.
- Reporting Incidents: Help us protect the Marina by reporting any environmental violations or concerns to the Marina Reception.

Thank you for your cooperation in keeping Limassol Marina clean, safe, and environmentally responsible
